I. INTRODUCTION

Dear Colleagues, this is our great pleasure to invite you to Minsk (Belarus) for attending Workshop NDTCS-2017.

Reports declared at Workshop will be distributed into 4 sessions:

1. Nanomaterials (structure, properties, and applications);
2. Computer Simulations of Physical Processes in micro- and nanoelectronics;
3. Application of high-performance computing systems for modeling in micro- and nanoelectronics;
4. Computational Mechanics and Computer-Aided Design.

NDTCS-2017 is a continuation of the 16 previous International Workshops which were held in St. Petersburg (Russia) – 1997-2005; Olsztyn (Poland) – 2006; Bayreuth (Germany) – 2007, Minsk (Belarus) – 2008, 2013; Espoo (Finland) – 2011; Grodno (Belarus) – 2015.

Workshop will focus on the modern methods for structures and properties investigation of various systems and computer simulation of physical and technological processes.

NDTCS-2017 will be held in Minsk, the capital of the Republic of Belarus.

The main organizer of the Workshop is the Belarusian State University of Informatics and Radio Electronics (BSUIR).

BSUIR plays a leading role in the training of engineering and scientific staff in the fields of computer science, radioelectronics and telecommunications in the education system of Belarus.
